Safeplace and Timelox are joining forces in the hotel industry

Global leaders of in-room safes and electronic-locking systems join forces to offer best-of-breed security solutions to hotels in the international markets

SAFEPLACE LIMITED— JUNE 2 — Safeplace Ltd, a recognized brand for reliable, high security and user-friendly safes around the world, and Timelox International, a leading-edge developer and manufacturer of electronic-locking systems for the international hotel industry, have joined forces to better serve the global hotel industry.

“It’s a new era for hotels, as two of the world’s leading security solutions providers unite to offer a more comprehensive portfolio of in-room safes and electronic locks,” said Moshe Cohen, CEO for Safeplace Ltd. “We are thrilled with this opportunity because we know that Timelox is one of the world’s most respected providers of electronic-locking systems with advanced interfaces and integrated card solutions. With Timelox electronic-locking systems now part of our product offering, we are confident that our customers will achieve new heights in guest satisfaction and hotel asset protection.”

TIMELOX[®] 

Ivan Aramayo, international sales manager for Timelox International, concurred saying: “The Safeplace line provides a secure solution for all market segment needs, from small budget hotels through full-service business hotels, beach resorts, cruise ships and mega-facilities. Safeplace, like Timelox, strives to provide the very best security systems with advanced features to increase guest satisfaction, protect hotel liability, and eliminate operational and maintenance costs and hassles.”

“The synergies between our two companies are ideal, and joining forces was evident in most regions of the world,” Aramayo said. “Together we will become a stronger force for providing hotel security solutions and service in the international markets. Market distribution in North America will remain unchanged for both Safeplace and Timelox.”
